UI/UX & Product Designer

Muhammad Arslan Sabir

UI/UX & Product Designer with 3 years of experience designing digital products across SaaS, eCommerce, websites, web applications, and mobile apps. At Devarion Solution, I contribute to product design for Working Trust. My work includes turning product requirements into clear user flows, wireframes, responsive interfaces, and interactive Figma prototypes. I focus on usability, visual consistency, reusable components, and clear developer handoff. I also have a basic understanding of HTML and CSS, which supports collaboration with development teams.

Experience

DevArion Solution | Aug 2026 – Present | On-Site

UI/UX & Product Designer (Full time)

Contribute to the product design of the Transporta mobile app, Working Trust, and the SkillVexa website. Work with the team to turn product requirements into clear user flows, wireframes, responsive interfaces, and interactive prototypes in Figma. Create reusable components, refine designs based on team feedback, and prepare organized files for developer handoff.

MilestoneZero | May 2026 – Jul 2026 | Remote

UI/UX Designer (Full time)

Designed SaaS platforms, dashboards, and web applications in Figma, with a focus on clear layouts and ease of use. Created user flows, wireframes, UI components, and high-fidelity screens. Contributed to consistent design patterns and brand guidelines, and worked with cross-functional teammates to refine designs and prepare them for development.

Frenco.ae | Feb 2024 – Apr 2026 | On-Site

UI/UX Designer (Full time)

Designed modern eCommerce websites, mobile applications, and responsive web interfaces for clients across multiple industries. Created user flows, wireframes, high-fidelity designs, prototypes, and reusable UI components in Figma. Worked closely with developers to ensure pixel-perfect implementation while delivering intuitive, visually appealing, and user-centered digital experiences.

Frenco.ae | Aug 2023 – Feb 2024 | On-Site

UI/UX Design Intern

Supported the design team in creating responsive websites and mobile application interfaces. Assisted with wireframes, UI components, prototypes, and design systems while gaining hands-on experience with real client projects. Strengthened my skills in Figma, user experience principles, and collaborative product design workflows.
